Wes Davis

I'm a follower of Jesus. A family man. A dreamer. A church planting junkie. And a basketball lover. My wife, Kari, and I launched a church 20 years ago in the Greater Seattle area that grew from 14 people in our living room to over 4000 people in 7 locations, 3 additional church plants, and 2000 people baptized (pre-COVID). Along the way our family grew to five kids and two grandchildren! My assignment from Jesus is to develop young leaders and launch churches. Don't we all dream of seeing a Jesus movement in our communities in our lifetime. Can you see it?

The Generation Gap in the Church: The Secret to Getting Different Generations On the Mission Together

1 million young people leave the church every year (including half the kids in our youth groups when they graduate). And many boomers and builders have raised their kids and are only passively involved in the church at a time when they have the most amount of wisdom and financial resources to make a difference.

Good news! This generation of young adults (ages 15-29 as defined by the study/book Growing Young) want mentors and are no longer looking for a church that is cool, but one that is warm! Could the next great awakening in America be as simple as getting the Young to see vision and the old to dream dreams together! Isn't that what it says in the book of Acts??

We live in a culture that worships the young but all the power is with the old.

We live in a country where data suggests that the #1 implicit bias is Age (#2 Body shape, #3 Ethnicity).

What if the church led the way in connecting all ages because the mission needs every generation!
